# wonder is all-around

## **Created for Explorers. Adventurers. Wanderers.**

At **Aqua Marina**, we are fuelled by passion to create inspirational products that drive users to pursue new experiences, explore new destinations, and discover a world worth wandering for. We encourage everyone to discover their own wonderland whether it be in the calm of a still lake or rushing down wild river rapids.

Break boundaries and experience a new way to see the world. Through extensive research, we've developed vessels packed with advanced technology to accompany you on any adventure with ease.

With a continuous commitment to safety and performance, trust in the **Aqua Marina** name as you conquer one destination at a time. We haven't worked out how to defeat time, but together we can commit to making every moment worth remembering.

Designed with YOU in mind, we created vessels that were easy to take no matter where adventure takes you. Travel with ease with our unique carrying solutions and compact designs. Take your vessels through the smallest valleys and up to remote lakes. **Aqua Marina** is there with you.

Our promise to our community is that we will never stop making our products perform harder, move faster, more ergonomic, even safer, and most of all MORE FUN. **Aqua Marina** promises to prioritise our users' needs and wants to create products worthy of your approval.

Breath-taking places are no longer a dream. Choose your next adventure.

OVERVIEW

# For The Blue Earth

## Our Sustainable Practices for Cleaner Waters

Committed to ocean health and sustainability, we have stayed passionate about encouraging our users to paddle responsibly and preserve our oceans so they can be enjoyed for years to come.

### Welding Technology

Without the use of any glue, we utilize High Frequency Welding and Heat Fusion Technology to merge two separate pieces of PVC into a single solid unit. Super strength and great for mother Earth!

### Digital Printing

We've replaced our traditional silk screen printing with industry leading Digital Printing Technology throughout our entire line up for the lowest environmental footprint.

### Recycled Paper

We are replacing plastic packaging and packing materials with recycled paper to reduce water pollution by **35%** and air pollution by **74%**.

### Eco-friendly CIRCUPACK™

Our latest SUP boards come with new Aqua Marina CIRCUPACK™ made from **100%** plastic waste. In using our new recycled fabric, we've reduced our water consumption by **20%**, our energy by **50%** and our CO2 emissions by **60%**!

# Explore a World with Wonder

Boundless exploration. Aqua Marina's extensive iSUP boards are ready to be your adventure companion. No matter your paddle style, there's a board tailored to your needs. Uncover a world yet to be fully explored from the deepest caves to the most serene oases. Ultra-portable, our iSUPs will accompany you wherever adventure takes you.

# SUP FOR EVERYONE

## DESIGNED TO IMPRESS

Aqua Marina's boards are crafted with a sleek, modern aesthetic that captivates both on and off the water. Every element, from colour schemes to finishes, is carefully designed to leave a lasting impression and reflect our users' sophisticated taste.

## SHAPED FOR PERFORMANCE

Engineered for speed, stability, and agility, each board is meticulously optimized for peak performance. Whether you're cruising, racing, or riding waves, our boards deliver a smooth, responsive experience that enhances every paddle stroke.

## CRAFTED FOR EASE OF USE

Every aspect of our boards is designed with our users in mind. From lightweight construction to ergonomic handles and a slip-resistant deck, we prioritize ease of use—whether you're carrying it to the water or paddling in any condition.

## TAILORED TO EVERY ADVENTURE

Aqua Marina offers something for everyone. Whether you're a beginner or a seasoned paddler, seeking family fun, competitive racing, or even yoga on the water, you'll find the perfect board to suit your needs and lifestyle.

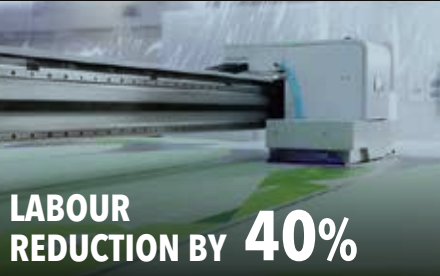

# INDUSTRY LEADING TECHNOLOGY

ECO-FRIENDLY, EFFICIENT,  
AND BUILT TO LAST

## EFFICIENT, MODERNIZED PRODUCTION

Aqua Marina is dedicated to establishing cutting-edge, large-scale production facilities, implementing clean, efficient manufacturing processes that guarantee top-tier product quality in every item.

**LABOUR  
REDUCTION BY 40%**

By automating key production processes, we've significantly reduced manual labor by 40%, enhancing precision and production efficiency.

**CONSISTENT QUALITY,  
YEAR-ROUND**

Temperature-controlled facilities and automated processes ensure consistent quality across all seasons, eliminating variability caused by environmental factors or human error.

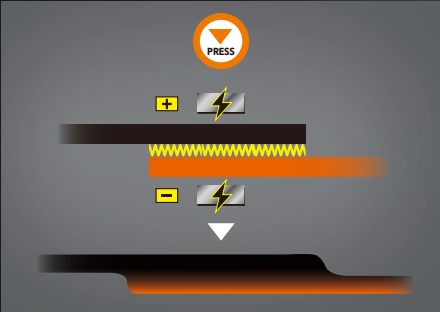

**PERFECT ROCKER**

Advanced machinery and precise alignment techniques ensure that every board produced features a perfect rocker, delivers improved stability and performance.

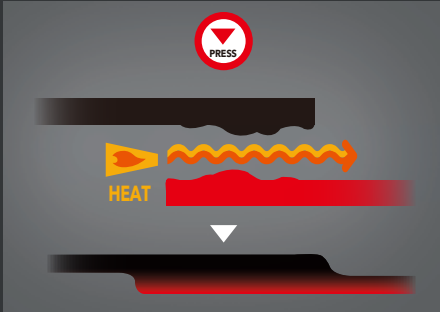

## INTO A GLUE-FREE ERA

Since 2014, we've led the industry in reducing and eliminating glue from our products. With unmatched expertise in machine-based production, we are the only company with the scale and commitment to fully invest in advanced welding technologies. This allows us to implement glue-free solutions for almost everything from materials to components, pushing sustainable manufacturing forward.

### HIGH FREQUENCY WELDING

We use High Frequency (HF) Welding Technology to bond PVC layers using electromagnetic energy. Two electrodes generate an oscillating electric field that releases energy in the form of heat, causing the PVC fabric to melt and fuse together. HF Welding creates robust, airtight, and hermetically sealed bonds without harming the environment.

### HEAT FUSION

Aqua Marina's innovative Heat Fusion Technology uses a specialized heat-welding process to join two pieces of reinforced PVC into a single solid unit. This technology not only makes our products stronger and longer-lasting but also promotes sustainability by benefiting the environment.

### EXTENDED PRODUCT LIFESPAN

Traditional glue is prone to aging and deterioration over time. Our glue-free technology, however, bonds materials at a molecular level, creating a permanent fusion between the two layers of PVC. When applied correctly, these materials remain inseparable, unlike glue-bonded products that often begin to fail and fall apart after just two years.

**AIRLITE™ TPU WOVEN MATERIAL TECHNOLOGY**

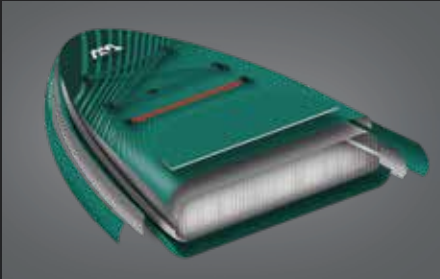

Experience our revolutionary AirLite™ TPU Woven Material technology. Unlike traditional knitted drop-stitch material, this game-changer reduces weight by 10% while maintaining exceptional board rigidity. Our latest boards leverage this cutting-edge technology, making them not only lighter but also stronger and stiffer.

1. Woven Drop stitch core
2. Second TPU layer

# VIBRANT

It's not just adults that love stand up paddling, and that's why we refreshed the very special kids SUP board for the younger paddlers.

The VIBRANT is an all-around board built for kids starting their paddle journey, coming in an all-around versatile shape and a compact package, ideal for youth to set up and pack away on themselves. Featuring an offset handle this year, kids can easily get their arms around the board for effortless carrying. Ideal for all water conditions and youth weighing up to 60kg.

Stable and easy to paddle, VIBRANT is especially user-friendly for the younger generation!

# VIBRANT TOURING

The VIBRANT TOURING is a youth touring board perfect for those who are training or joining parents or friends on longer tours. Featuring a streamlined outline and moderate rocker profile, this board offers a smooth glide and easy maneuvering.

# RACING

The Aqua Marina RACE is available in two lengths of 12'6" and 14'0", both in a 27" width, which provides enough stability to be in control when conditions get choppy, but stays fast and slippery to cover distances quickly.

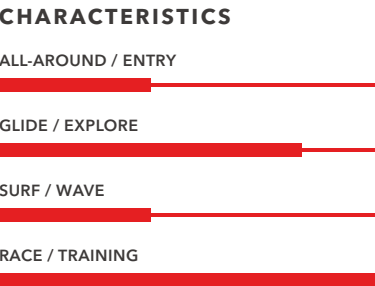

RACE ELITE is a true racing machine, specifically designed for advanced paddlers looking to focus on paddling speed while covering longer distances. Constructed with four ultra-stiff carbon fibre reinforced stringers (CFR™ Technology), this board delivers incredible rigidity and responsiveness. Featuring a straighter outline and pointier tail to increase top speed and maximise gliding efficiency, this race champion excels at keeping the board moving in a straight line. With a reduced width of 25" and bonus EVA side rail pad, the RACE ELITE ensures improved acceleration without sacrificing on stability.

**CARBON FIBER REINFORCEMENT**  
Carbon Fiber Reinforced (CFR™ Technology) quadruple stringers for stiffness and responsiveness

**DECK FOOTPAD**  
Non-print EVA footpad of diamond grooving crocodile skin, ensuring ultimate grip and comfort

**SIDE RAIL PAD**

# RIVER

With glide for beginner paddlers cruising streams and stability for experienced riders challenging rolling whitewater, the RAPID is all about versatility in wild water conditions. Featuring an ample nose and curved rocker line, this robust board excels in extraordinary responsiveness to challenge whitewater rapids or surf river waves.

The generous volume convinced with a 33" width provides river touring adventurers with ultimate stability. Featuring our new ARCH EDGE™ system, the RAPID enables riders to focus on river paddling without having to look down and prevents your back foot from slipping when applying tail pressure.

Constructed with Aqua Marina's Double Layer Technology, this board is lightweight for easy transport and compact without sacrificing rigidity.

## NON-SLIP EVA FOOTPAD

Deep diamond-cut crocodile skin EVA footpad for ultimate grip and less risk of slipping off when wearing footwear

# SURF

We've discovered a way for everyone to easily ride the waves with a paddle board for every water activity.

The incredible WAVE is upgraded with a narrower nose and squared tail for better manoeuvrability, making it the perfect surfboard for both beginners and intermediate surfers.

Coming in with a stunning new look, the WAVE is designed for beginner to intermediate surf enthusiasts who want to easily catch waves and manoeuvre turns without compromising on speed.

To significantly enhance the wave-riding performance, we refreshed the WAVE outline by providing a narrower nose that is much lighter to manoeuvre through small and large waves, while a squared tail boosts turning ability. The larger nose rocker is also improved to limit nose-diving so you can catch wave after wave.

This year, we've made remarkable advances to the WAVE's fin system. Its industry leading thruster fin comes with an innovative "click and go" installation while new add-on side fins are shaped differently for use on the left and right for faster response. No matter the surf conditions, customise the WAVE for your unique needs.

**NON-PRINT EVA FOOTPAD**  
Non-print EVA footpad of diamond grooving crocodile skin, ensuring ultimate grip and comfort

**TAIL KICK PAD**  
Built-in tail kick pad providing more support for reactive turning

TOURING KAYAK

## MEMBA

*Trekking isn't just for the land.*

Our Touring Kayaks were designed for long range on water expeditions with ample storage space for gear and extras.

Developed with paddling efficiency in mind, these kayaks are ideal for venturing into calm lakes and gentle rivers.

# MEMBA

Featuring a sleek, curved, touring shape, the MEMBA series excels in tracking and speed with its extra-long waterline. Perfect for adventurers looking for an efficient long-distance touring kayak.

Constructed from our signature AQUASHELL™ fabric, the refreshed MEMBA kayaks are ultra-durable with anti-UV protection on hull covers with long-lasting graphics through advanced digital printing.

The low rocker hull design, when combined with the stiff high-pressure drop-stitch deck, results in more glide, better tracking and effortless paddling. Weighing only 13.4kg and 17.0kg for solo and tandem models respectively, the MEMBA can be neatly packed into its newly-designed backpack for easy storage and portability.

### TECHNICAL FEATURES

- **AQUASHELL™ TECHNOLOGY**  
Heavy-duty shell fabric with special anti-UV and water-repellent treatment for durability
- **ECO-PRINT™ TECHNOLOGY**  
Revolutionary digital printing technique for long-lasting graphic design and eco-friendly process
- **DROP-STITCH DECK**  
Removable 7cm drop-stitch high pressure floor for ultimate stability and rigidity
- **STREAMLINED DESIGN**  
Sleek, curved, streamlined shape for good tracking performance
- **DECK SHIELD™**  
Water shield preventing splash from flowing backwards to the cockpit
- **CARGO BUNGEE**  
Adjustable cargo bungee system to easily fasten the luggage
- **DRAIN VALVE**  
Superfast 1+2 self-bailing valves can be left open for quick water drainage in whitewater and ocean kayaking or closed for flat-water paddling

## AIRCAT

*Get ready to be wow-ed by our AIRCAT.*

This all-around watercraft is the champion on the water and will have you cruising through a variety of water types with ease.

# Ultra Stable Comfortable

INFLATABLE CATAMARAN

# AIRCAT

Featuring an ultra-stable tunnel hull and generous deck space, the AIRCAT inflatable catamaran is impressive with its outstanding capacity and the ability to brave winds and waves in high-speed. Fancy a camping trip with your family? The AIRCAT is ultra portable and compact to take on trips and expeditions.

Available in 2.85m and 3.35m lengths, both at 1.6m widths, the AIRCAT is the ideal water safety craft and a touring boat. The unique open bow design is a favourite for fishing and diving lovers, offering a spacious standing or resting platform. Constructed with Aqua Marina's signature High Frequency Welding Technology for tube chambers, combined with our Drop Stitch Light Technology applied on the air deck, the AIRCAT was born to be safe, rigid, super-stable, but ultra-light.

Gone are the days when a dedicated boat trailer was required to enjoy the water. Now just pack everything you need into the carry bag, and throw it into your backseat or truck. Our new AIRCAT guarantees a day of fun and relaxation!

## DELUXE

Compact and lightweight, these inflatable boats make great ship to shore tender crafts or a highly portable adventure craft for on the go boating.

# U-DELUXE

Meet our deluxe line with an added U-type boat series. Constructed of our exclusive DWF air deck, the U-Deluxe is available in three sizes: 2.5m, 2.98m, and 3.5m. These air-deck deluxe boats were designed as ideal tenders with oversized tube chambers and generous deck space.

Featuring a U-shaped bow and DWF air deck, the U-DELUXE series is more advanced in construction and production. Our 20 years of experience in inflatable watercrafts guarantees the highest quality in this professional series.

The DELUXE boats are extremely light but extremely rigid, due to Aqua Marina's signature High Frequency Welding Technology and Drop Stitch Light Technology applied to the floor. With highly improved capacity, the DELUXE can easily be loaded with all your gear. Foldable, portable and loadable. This is your new favourite tender!

B0303948 (MEDIUM) B0303949 (LARGE)

Waterproof and made to keep you warm and dry in frigid weather conditions. Easily slip this on for additional protection from the elements.

MEDIUM: Recommended for 5'0"-5'11" (152cm-180cm)  
LARGE: Recommended for 5'11"-6'8" (180cm-203cm)  
\* Change ponchos are designed to be oversized with plenty of room to get changed.  
\* If you are on the borderline of two sizes, the larger option is recommended.
