For The Blue Earth

Our Sustainable Practices for Cleaner Waters

Committed to ocean health and sustainability, we have stayed passionate about encouraging our users to paddle responsibly and preserve our oceans so they can be enjoyed for years to come.

Welding Technology

Without the use of any glue, we utilize High Frequency Welding and Heat Fusion Technology to merge two separate pieces of PVC into a single solid unit. Super strength and great for mother Earth!

Digital Printing

We've replaced our traditional silk screen printing with industry leading Digital Printing Technology throughout our entire line up for the lowest environmental footprint.

Recycled Paper

We are replacing plastic packaging and packing materials with recycled paper to reduce water pollution by **35%** and air pollution by **74%**.

Eco-friendly CIRCUPACK™

Our latest SUP boards come with new Aqua Marina CIRCUPACK™ made from **100%** plastic waste. In using our new recycled fabric, we've reduced our water consumption by **20%**, our energy by **50%** and our CO2 emissions by **60%**!

EXPLORE A WORLD WITH WONDER

ISUP COLLECTION

Boundless exploration. Aqua Marina's extensive iSUP boards are ready to be your adventure companion. No matter your paddle style, there's a board tailored to your needs. Uncover a world yet to be fully explored from the deepest caves to the most serene oases. Ultra-portable, our iSUPs will accompany you wherever adventure takes you.

INDUSTRY LEADING TECHNOLOGY

**ECO-FRIENDLY, EFFICIENT,
AND BUILT TO LAST**

EFFICIENT, MODERNIZED PRODUCTION

Aqua Marina is dedicated to establishing cutting-edge, large-scale production facilities, implementing clean, efficient manufacturing processes that guarantee top-tier product quality in every item.

**LABOR
REDUCTION BY 40%**

By automating key production processes, we've significantly reduced manual labor by 40%, enhancing precision and production efficiency.

**CONSISTENT QUALITY,
YEAR-ROUND**

Temperature-controlled facilities and automated processes ensure consistent quality across all seasons, eliminating variability caused by environmental factors or human error.

PERFECT ROCKER

Advanced machinery and precise alignment techniques ensure that every board produced features a perfect rocker, delivering improved stability and performance.

INTO A GLUE-FREE ERA

Since 2014, we've led the industry in reducing and eliminating glue from our products. With unmatched expertise in machine-based production, we are the only company with the scale and commitment to fully invest in advanced welding technologies. This allows us to implement glue-free solutions for almost everything from materials to components, pushing sustainable manufacturing forward.

HIGH FREQUENCY WELDING

We use High Frequency (HF) Welding Technology to bond PVC layers using electromagnetic energy. Two electrodes generate an oscillating electric field that releases energy in the form of heat, causing the PVC fabric to melt and fuse together. HF Welding creates robust, airtight, and hermetically sealed bonds without harming the environment.

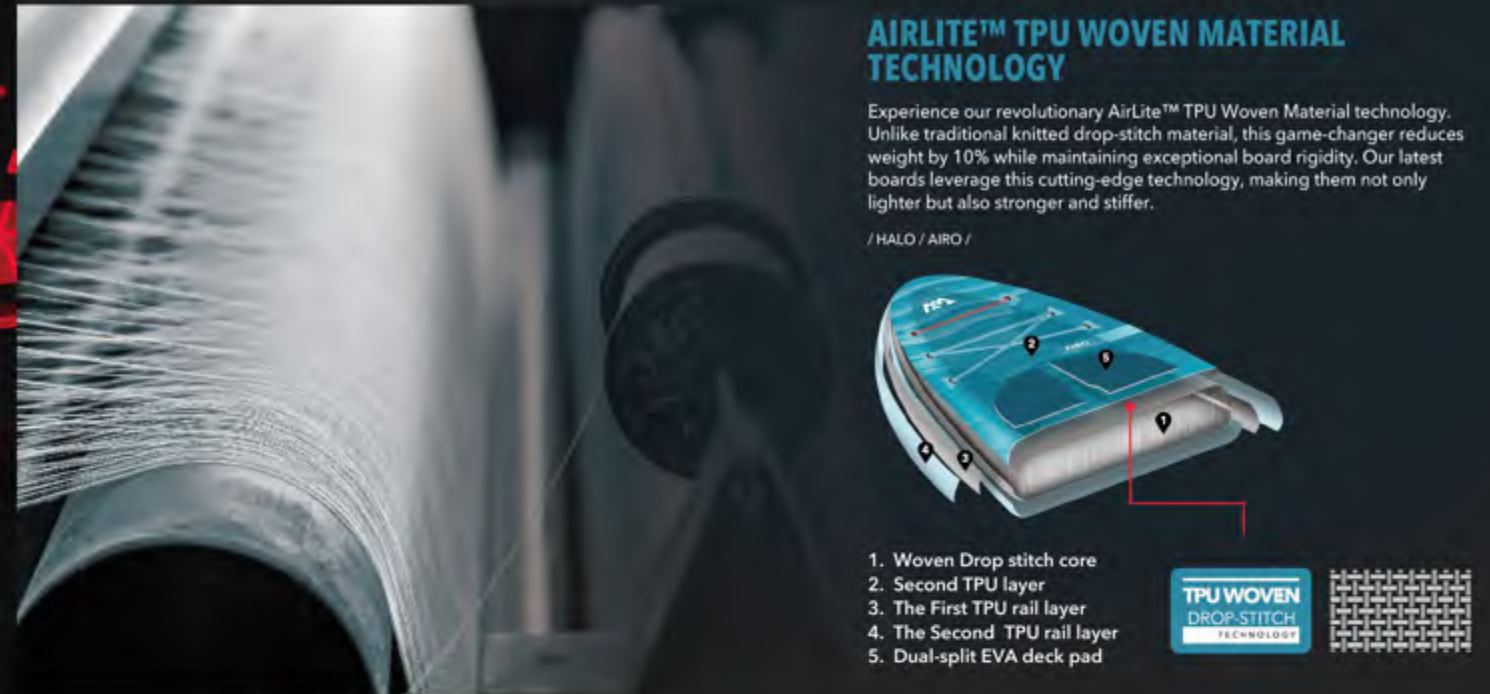

HEAT FUSION

Aqua Marina's innovative Heat Fusion Technology uses a specialized heat-welding process to join two pieces of reinforced PVC into a single solid unit. This technology not only makes our products stronger and longer-lasting but also promotes sustainability by benefiting the environment.

EXTENDED PRODUCT LIFESPAN

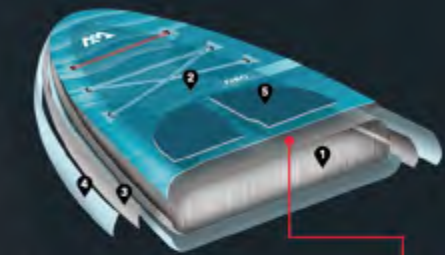

Traditional glue is prone to aging and deterioration over time. Our glue-free technology, however, bonds materials at a molecular level, creating a permanent fusion between the two layers of PVC. When applied correctly, these materials remain inseparable, unlike glue-bonded products that often begin to fail and fall apart after just two years.

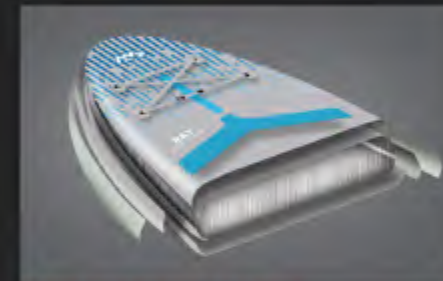

AIRLITE™ TPU WOVEN MATERIAL TECHNOLOGY

Experience our revolutionary AirLite™ TPU Woven Material technology. Unlike traditional knitted drop-stitch material, this game-changer reduces weight by 10% while maintaining exceptional board rigidity. Our latest boards leverage this cutting-edge technology, making them not only lighter but also stronger and stiffer.

INFLATABLE STAND UP PADDLE BOARD

ISUP

The Aqua Marina RACE is available in two lengths of 12'6" and 14'0", both in a 27" width, which provides enough stability to be in control when conditions get choppy, but stays fast and slippery to cover distances quickly.

RACE ELITE is a true racing machine, specifically designed for advanced paddlers looking to focus on paddling speed while covering longer distances. Constructed with four ultra-stiff carbon fiber reinforced stringers (CFR™ Technology), this board delivers incredible rigidity and responsiveness. Featuring a straighter outline and pointier tail to increase top speed and maximise gliding efficiency, this race champion excels at keeping the board moving in a straight line. With a reduced width of 25" and bonus EVA side rail pad, the RACE ELITE ensures improved acceleration without sacrificing on stability.

- **CARBON FIBER REINFORCEMENT:** Carbon Fiber Reinforced (CFR™ Technology) quadruple stringers for stiffness and responsiveness.
- **DECK FOOTPAD:** Non-print EVA footpad of diamond grooving crocodile skin, ensuring ultimate grip and comfort.
- **SIDE RAIL PAD:** Built-in EVA side rail pad design, helping riders easily find balance during high-speed paddling.
- **KICK PAD:** Newly-designed tail kick pad for critical bottom turns and cutbacks.

SURF

WAVE 8'8"

We've discovered a way for everyone to easily ride the waves with a paddle board for every water activity.

The incredible WAVE is upgraded with a narrower nose and squared tail for better maneuverability, making it the perfect surfboard for both beginners and intermediate surfers.

Coming in with a stunning new look, the WAVE is designed for beginner to intermediate surf enthusiasts who want to easily catch waves and maneuver turns without compromising on speed.

To significantly enhance the wave-riding performance, we refreshed the WAVE outline by providing a narrower nose that is much lighter to maneuver through small and large waves, while a squared tail boosts turning ability. The larger nose rocker is also improved to limit nose-diving so you can catch wave after wave.

We've made remarkable advances to the WAVE's fin system. Its industry-leading thruster fin comes with an innovative "click and go" installation while new add-on side fins are shaped differently for use on the left and right for faster response. No matter the surf conditions, customise the WAVE for your unique needs.

- **NON-PRINT EVA FOOTPAD :** Non-print EVA footpad of diamond grooving crocodile skin, ensuring ultimate grip and comfort.
- **TAIL KICK PAD:** Built-in tail kick pad providing more support for reactive turning.
- **THRUSTER FIN SYSTEM:** Easy-to-use Swift Attach Fin System (SAFS™) specifically designed to catch waves and maneuver turns.

With the new CASCADE series, adventures in nature will be unlike any other. Combining kayaking and stand-up paddle boarding into one compact board, this ultra-wide SUP/kayak is super stable and ready for adventure. The 8" thickness allows maximum volume that caters to those carrying gear for long-distance exploration. Constructed with our Drop Stitch Light Technology, the CASCADE series combines great portability with incredible stiffness.

• **CONSTRUCTION:** Double-chamber construction tactically designed for SUP-Kayak switch, creating a standing tray and a cockpit.

• **SEAT SYSTEM (CASCADE):** Stainless steel D-rings and Velcro design for durable padded seat connection.

• **DRAIN VALVE:** Integrated superfast self-bailing drain valve design.

Featuring an ultra-stable tunnel hull and generous deck space, the AIRCAT inflatable catamaran is impressive with its outstanding capacity and the ability to brave winds and waves at high-speed. Fancy a camping trip with your family? The AIRCAT is ultra portable and compact to take on trips and expeditions.

Available in 2.85m and 3.35m lengths, both at 1.6m widths, the AIRCAT is the ideal water safety craft and touring boat. The unique open bow design is a favourite for fishing and diving lovers, offering a spacious standing or resting platform. Constructed with Aqua Marina's signature High Frequency Welding Technology for tube chambers, combined with our Drop Stitch Light Technology applied on the air deck, the AIRCAT was born to be safe, rigid, super-stable, and ultra-light.

Gone are the days when a dedicated boat trailer was required to enjoy the water. Now just pack everything you need into the carry bag, and throw it into your backseat or truck. Our new AIRCAT guarantees a day of fun and relaxation!

ULTIMATE PROTECTION AND STYLE

AQUA MARINA APPAREL

PERSONAL FLOTATION DEVICE (PFD)

Made of lightweight polyester oxford fabric and EPE foam, the Aqua Marina Personal Flotation Device (PFD) is quick-drying, comfortable and protective, perfect for various occasions, such as SUP paddling, kayak paddling and boat cruising. The adjustable webbing straps give the vest unisex fit, suitable for almost all body sizes and shapes.

This PFD has passed the EN ISO 12402-5:2020 buoyancy aids standards, recommended to be used in calm, sheltered waters where help is close at hand if required.

PONCHO PORTABLE FITTING ROOM

Get ready for the water faster than ever before! Like a portable changing room, our ponchos offer superb discretion on the go so you can change in or out of your beachwear and dry off from anywhere.

MICROFIBER CHANGE PONCHO

B0303946 (MEDIUM)

B0303947 (LARGE)

Quick-drying material, designed for easily changing in and out of sportswear when hitting the water while the absorbent material dries you off after.

WATER-REPELLENT THERMAL PONCHO

B0303948 (MEDIUM)

B0303949 (LARGE)

Waterproof and made to keep you warm and dry in frigid weather conditions. Easily slip this on for additional protection from the elements.

MEDIUM: Recommended for 5'0"-5'11" (152cm-180cm)

LARGE: Recommended for 5'11"-6'8" (180cm-203cm)

* Change ponchos are designed to be oversized with plenty of room to get changed.

* If you are on the borderline of two sizes, the larger option is recommended.
